PROV Branch

Special Situations, Questions or Comments -- (to be resolved &/or training issue w/ branch)

NOTE: Due to the lack of full reporting from all Canadian branches (including the two principalities) and the broad variety of report formats used when branches do report, it was not possible to match-up payments with revenues received between branches within Canada. Only in a few instances did reports provide any information that allowed identification of probable transfers (like NMS), and then often did not state to what branch the transfer was made.

REMINDER: Money sent to another branch WITHIN Canada should be listed as Expense under "Transfer to another branch within the kingdom"; money sent to another SCA branch across the border should be listed as Expense under "Donations to another non-profit". Money RECEIVED from another branch WITHIN Canada should be listed as Income under "Transfers-in within Kingdom"; money sent from another SCA branch across the border should be listed as Income under "Direct Contributions".
