

# KINGDOM OF ANTIR

## INCIDENT REPORT

- (1) Use this report for any type of injury, significant armor or weapon failures, or behavioral incidents. (Ideally it should be completed by the marshal who witnessed the incident.) Attach this document to the MIC report if the incident was at an event or demo. Otherwise promptly send it to your Regional or Principality Deputy as a separate message. Use an additional page if necessary.
- (2) All injuries which involve a period of unconsciousness or admission to the hospital, or which may require future medical care, must be reported to the Kingdom Marshal for that sport by phone or email within 24 hours of the incident. An official Incident Report form must be sent to that officer within 48 hours, and also sent to the Regional or Principality Marshal. The individual making the call and written report needs to include all available details in both reports.
